

TECHNICAL DATA SHEET

HIGHLIGHTS

- Economical
- Odorless
- Mild
- Antibacterial

TYPICAL PROPERTIES

- Specific Gravity: **1.05**
- pH: **6.0**
- Quaternary Ammonium Chlorides: **2.5% min.**
- Solids: **10.7%**
- Viscosity: **2500 cps**
- Appearance: **Clear pink liquid**
- Odor: **Odorless**
- USDA: **E-2**

SAFETY CAUTIONS

- Keep out of reach of children.
- Refer to M.S.D.S. for additional safety information.

HMIS RATINGS

HANCLEAN

Antiseptic Handwash

This product is an effective one-step cleaner/sanitizer for use in food processing plants and restaurants by personnel prior to handling food and/or food-processing equipment. Based on quaternary ammonium chlorides, this viscous formulation is more cost-efficient than traditional PCMX-based products.

This formulation effectively reduces the bacterial flora of the skin. When tested via the Modified Available Chlorine Germicidal Equivalent Concentration Test it demonstrates equal sanitizing activity to 50 ppm of free chlorine against Staphylococcus aureus and Salmonella typhi. Formulated with skin conditioners for extra mildness.

DIRECTIONS-

Hands need not be washed prior to using this product. For one-step hand washing and sanitizing, place approximately 5 cc in palm of hand, add 15 cc of water, lather and wash in normal manner. After use, hands must be thoroughly rinsed with potable water.
