HANCLEAN

Antiseptic Handwash

HMS RATINGS:

CAUTION
KEEP OUT OF REACH OF CHILDREN

Net Contents: 1 Gallon (3.8 L)

This product is an effective one-step cleaner/sanitizer for use in food processing plants and restaurants by personnel prior to handling food and/or food-processing equipment. Based on quaternary ammonium chlorides, this viscous formulation is more cost-efficient than traditional PCMX-based products.

This formulation effectively reduces the bacterial flora of the skin. When tested via the Modified Available Chlorine Germicidal Equivalent Concentration Test it demonstrates equal sanitizing activity to 50 ppm of free chlorine against *Staphylococcus aureus* and *Salmonella typhi*. Formulated with skin conditioners for extra mildness.

This product is designed exclusively for industrial and institutional use by trained personnel. This product is sold as is and the manufacturer makes no warranty, express or implied, of merchantability, fitness for a particular purpose or otherwise.
