Magik Foam High Foaming Acid Surface Cleaner

A powerful, fast-acting, multiple acid and detergent based cleaner that instantly foams away heavy grease, oil, soil, and mineral deposits. Can be used on most bathroom and shower surfaces... Shower stalls, partitions, swimming pool walls, grout, fiberglass, chrome, plastic compositions, and especially ceramic tile. Dissolves and emulsifies soap scum, body oils and urinary salts, as well as hard water deposits such as lime, calcium, and iron. Especially effective on greasy ceramic tile kitchen floors.

DIRECTIONS: For greater economy, use foam application equipment. Cleans equally well in hard water. Dilute with warm or cold water to the concentration that best suits the job as follows:

- Light Duty 1 part cleaner to 35 parts water (3 1/2 oz. per gal.)
- Medium Duty 1 part cleaner to 25 parts water (4 1/2 oz. per gal.)
- Heavy Duty 1 part cleaner to 15 parts water (8 oz. per gal.)
- Extra Heavy Duty 1 part cleaner to 5 to 10 parts water (12-21 oz. per gal.)

Though the cleaner is specially formulated for foam application, it may be applied manually with a trigger sprayer or bristle brush. For maximum cleaning efficiency and clinging foam with a trigger-spray application, use undiluted. After application, let foam react to penetrate and loosen soil. Then brush and rinse well. Always rinse thoroughly after using.

Prevention:

Do not eat, drink, or smoke while using this product. Avoid breathing fumes, mist and overspray as much as possible. Use only in well ventilated areas.

Eyes: Wear safety glasses when handling product.

Skin: Wear appropriate gloves to prevent skin exposure.

Clothing: Wear appropriate protective clothing to prevent skin exposure.

Respirators: Follow the OSHA respirator regulations if exposure limits are exceeded or if irritation or other symptoms are experienced.

Danger!
Causes severe skin burns
and eye damage.

Prevention:

Do not eat, drink, or smoke while using this product. Avoid breathing fumes, mist and overspray as much as possible. Use only in well ventilated areas.

Eyes: Wear safety glasses when handling product. Skin: Wear appropriate gloves to prevent skin exposure.

Clothing: Wear appropriate protective clothing to prevent skin exposure. Respirators: Follow the OSHA respirator regulations if exposure limits are exceeded or if irritation or other symptoms are experienced.

Precautionary Statements (First Aid):

Eyes: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Remove contact lenses if present and easy to do. Get medical attention immediately if irritation persists.

Skin: Immediately flush skin with plenty of water for at least 15 minutes while removing any contaminated clothing and shoes. Discard contaminated clothing in a manner which limits further exposure, making sure to wash before reuse. Contact a physician immediately if irritation persists.

Ingestion: Do not induce vomiting. If victim is conscious and alert, give 2-4 cups of water. Never give anything by mouth to an unconscious person. Get medical attention immediately.

Inhalation: Remove from exposure and move to fresh air immediately and keep comfortable for breathing. If breathing is difficult, give oxygen. If breathing has ceased apply artificial respiration using oxygen and a suitable mechanical device such as a bag and a mask. Get medical attention immediately if irritation persists. Notes to Physician: Treat symptomatically and supportively. Consult a doctor and/or the nearest Poison Control Centre for all exposures.
