Caution:
For Professional Use Only.
Keep Out Of Reach Of Children.
Please read all precautions and SDS
before using this or any product.

Warning!
Causes serious eye irritation.

A special non staining super concentrated portable restroom deodorant. This product contains the dye, perfume, and deodorizer package in one. This product is extremely effective in portable toilets and portable restrooms. Will keep odors down while providing a fresh scent during the warmest months. Long lasting and effective in almost any conditions. Available in Cherry, Bubble Gum, SpiceBerry, Cinnamon, and Orange Blast, and Wintermint fragrances.

USES: Garbage Collection Trucks; Garbage and Refuse Cans; Barns and Stables; Sludge Beds; Incinerator Pits; Rendering Plants; Packing Plants; Dairies; Sewage Plants; Land Fill Refuse Disposal Areas; Kennels and Small Animal Clinics; Garbage Container Areas of Hotels, Motels, Restaurants, Hospitals, etc.
Directions:

DIRECTIONS: In enclosed areas sprinkle this product where there is the least traffic. Use at rate of about 2 oz. for each 1,000 cubic feet of enclosed space. To remove, simply sweep up and deposit in waste receptacle. In outdoor areas scatter this product widely over the entire area. The amount used will vary with the intensity of the odor problem. To keep garbage containers fresh and odor free, treat with 3-4 tablespoons daily. Scatter on truck beds, around the sides and over the contents of partially loaded garbage and refuse trucks for complete odor control. This is a dry granular concentrated deodorant formulated specially to overcome objectionable odors of refuse and sewers where daily cleanup of refuse containers, garbage trucks, and the like, is impossible. This product serves a vital purpose in masking odors.

Prevention:

Do not eat, drink, or smoke while using this product.

Avoid breathing fumes, mist and overspray as much as possible. Use only in well ventilated areas.

Eyes: Wear safety glasses when handling product.

Skin: Wear appropriate gloves to prevent skin exposure.

Clothing: Wear appropriate protective clothing to prevent skin exposure.

Respirators: Follow the OSHA respirator regulations if exposure limits are exceeded or if irritation or other symptoms are experienced.

Precautionary Statements (First Aid):

Eyes: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Remove contact lenses if present and easy to do. Get medical attention immediately if irritation persists.

Skin: Immediately flush skin with plenty of water for at least 15 minutes while removing any contaminated clothing and shoes. Discard contaminated clothing in a manner which limits further exposure, making sure to wash before reuse. Contact a physician immediately if irritation persists.

Ingestion: Do not induce vomiting. If victim is conscious and alert, give 2-4 cups of water. Never give anything by mouth to an unconscious person. Get medical attention immediately.

Inhalation: Remove from exposure and move to fresh air immediately and keep comfortable for breathing. If breathing is difficult, give oxygen. If breathing has ceased apply artificial respiration using oxygen and a suitable mechanical device such as a bag and a mask. Get medical attention immediately if irritation persists.
