

Description

This product is a concentrate and is designed to be used as a high foaming car wash detergent. **WASH-n-WAX** is designed with the finest penetrating detergents, builders, solvents and chelates available on the market today. **WASH-n-WAX** can quickly penetrate, emulsify and remove even the most tenacious soils. All this is accomplished without the use of harsh caustics. This product is designed for hand washing of vehicles and imparting a polymer protective coating to the surface. This coating will enhance the gloss of the paint and repel water.

Directions

Use **Wash-n-Wax** at the rate of 1 oz. per 2 gallons of water. Wash vehicle from the bottom up doing only small sections at a time. Rinse thoroughly from top down. It is always preferable to wash vehicles in the shade as this will eliminate the detergent from drying on the paint surface. This product will help prevent mineral water spotting on chrome and paint.

NET CONTENTS: On Container

Prevention:

Do not eat, drink, or smoke while using this product.

Avoid breathing fumes, mist and overspray as much as possible. Use only in well ventilated areas.

Precautionary Statements (First Aid):

Eyes: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Remove contact lenses if present and easy to do. Get medical attention if irritation persists.

Skin: Immediately flush skin with plenty of water while removing any contaminated clothing and shoes. Discard contaminated clothing in a manner which limits further exposure, making sure to wash before reuse. Contact a physician immediately if irritation persists.

Ingestion: Do not induce vomiting. If victim is conscious and alert, give 2-4 cups of water. Never give anything by mouth to an unconscious person. Contact a physician.

Inhalation: Remove from exposure and move to fresh air immediately and keep comfortable for breathing. If breathing is difficult, give oxygen. If breathing has ceased apply artificial respiration using oxygen and a suitable mechanical device such as a bag and a mask. Get medical attention immediately if irritation persists.
