

#### DESCRIPTION:

**Armor Plate** is designed to be applied to all types of type floors for shine, wear resistance and slip resistance protection. **Armor Plate** will protect tile floors from wear and will not dust. It is slip resistant when wet and resists damage and marking from heel marks. **Armor Plate** is a tough metal interlock floor finish that will give superior protection in high wear lanes and is easily repaired by spray buff or high speed burnishing. **Armor Plate** will give many months of high gloss wear protection without dusting, yellowing or cracking. **Armor Plate** remains beautifully tough.

#### DIRECTIONS FOR USE:

After floor is stripped of all finish, rinsed thoroughly and resealed, apply **Armor Plate** evenly, smoothly and with overlapping strokes until entire area is coated. Allow enough time for coat to dry to a hard touch. Apply a second coat in the same manor. Allow to dry, then apply a third coat for added protection. A fourth coat can be applied for super long term wear resistance and deeper shine. For regular maintenance, damp mop with mild detergent. Spray buff weekly using a ratio of 1 part **Armor Plate** and 2 parts water or use high speed burnishing to repair and reglaze the surface.
