

PRODUCT DESCRIPTION:

NS-126 is a natural highly concentrated liquid especially formulated with the highest quality ingredients available today. **NS-126** contains a film forming agent that will prevent the new low temperature popcorn asphalt from sticking to any surface. **NS-126** eliminates the current concerns over environmental issues. It contains no petroleum hydrocarbons.

USE DIRECTIONS:

For Traditional High Temp Asphalt: Clean surfaces thoroughly with **Citrus Clean** before applying. Mix 1 part **NS-126** with 20 parts water. Place chemical suction tube into premix container and apply mixture over the surfaces which will contact the asphalt. Reapply as required. When using drum top or wall mounted automatic injection equipment, set metering to run 1 part **NS-126** with 20 parts water.

For Low Temp Popcorn Asphalt: Clean surfaces thoroughly with **Citrus Clean** before applying. Mix 1 part **NS-126** with 4 parts water. Place chemical suction tube into premix container and apply mixture over the surfaces which will contact the
