

PRODUCT DESCRIPTION:

NS-25 is a highly concentrated liquid especially formulated with the highest slip materials and anti sticking agents available today. **NS-25** contains leveling agents, asphalt anti-stick agents and is attracted to metal surfaces. It is designed specifically for preventing asphalt from sticking to truck beds and asphalt handling equipment. **NS-25** puts a barrier between the equipment and the asphalt preventing the asphalt from adhering.

NS-25 is formulated with all natural vegetable products to prevent environmental contamination. It is formulated to form a shelf stable water/oil emulsion so that no shaking is required. The emulsion allows the natural oil to coat the surface preventing asphalt adhesion but allows the product to be easily cleaned after use. This does not build up on surfaces, requiring less maintenance long term.

DO NOT mix **NS -25** with petroleum products.

USE DIRECTIONS:

FOR FIRST TIME USE: The surface(s) to be treated with **NS-25** must be free of asphalt residues before use of **NS-25**.

FOR TRUCKS & EQUIPMENT: If asphalt build up is heavy, clean thoroughly and then apply **NS-25** as is.

DO NOT DILUTE. Using a pump-up sprayer or spray arch, apply a generous coating to the surface of the truck bed and equipment.

NS-25

Asphalt Release

Easy-to-Use Sprayable Liquid

CAUTION

KEEP OUT OF REACH OF CHILDREN

NS-25 must be sprayed on surfaces in advance. An inspection of the truck surface would be recommended to insure the **NS-25** coating is still in place. Rain could reduce the effectiveness of the coating. If this occurs, simply reapply to the areas affected by rain.

CAUTION:

Keep this, and all chemical compounds out of the reach of children. Do not allow to freeze. Do not ingest. Use eye protection when handling the concentrate. Do not store at temperatures above 120° F.

EMERGENCY FIRST AID:

EYES - rinse for 15 minutes with potable water, seek immediate medical attention. **SKIN** - rinse thoroughly with water, seek medical attention. **INGESTION** - seek immediate medical attention. **INHALATION** - remove victim to source of fresh air, seek medical attention. Consult M.S.D.S. for additional safety information. Medical Emergency Information call 1-800-535-5053.
