RAPID SOLV

Effective as a solvent degreaser to remove dirt, grease and grime from metallic and non-metallic surfaces. For use on electric motors (even while running), ignition systems, generators, power tools, pumps, fans, relays, etc. Just spray on, let set for a minute, then wipe off or rinse with a second spray. An excellent replacement in applications where 1,1,1 Trichloroethane has traditionally been used.

DIRECTIONS FOR USE: NOT FOR USE ON PLASTIC. Shake well before using. Spray entire area to be cleaned or degreased. Allow several minutes for solvent to work on heavily encrusted areas. Use a brush for agitation. Rinse off with a repeat application.

CAUTION: Harmful if swallowed. If swallowed, DO NOT induce vomiting. CALL A PHYSICIAN IMMEDIATELY. Use with adequate ventilation. Deliberately concentrating and inhaling the vapor of the contents may be harmful or fatal. Avoid frequent or prolonged contact with skin or eyes. If sprayed in eyes, flush with water for 15 minutes and contact a physician immediately. Do not spray directly into open flames or hot surfaces, as contents decompose and produce toxic gases. Do not puncture, incinerate, store in direct sunlight, or keep in temperatures above 120°F (49°C). Do not place near source of heat or radiator as high temperatures may cause the container to burst.

CONTAINS (CAS No.): Ethylene Trichloride (79-01-6), Carbon Dioxide (124-38-9).

**READ MATERIAL SAFETY DATA SHEET BEFORE USING.
KEEP OUT OF REACH OF CHILDREN.**

Made in U.S.A.
