Drain KO Heavy Duty Drain Opener & Cleaner

Drain KO is a very effective drain pipe cleaner with no fumes or odor. Opens obstructions due to grease, food residue, paper and other organic materials. Drain KO will not harm pipes and plumbing. Drain KO also works in sewage lift stations by converting solid organic floating matter to liquid soap for easy flowing to and through pipes.

DANGER: READ THESE PRECAUTIONS BEFORE USING:
While using Drain KO, wear goggles or full face shield, rubber gloves and protective clothing such as rain coat or water proof tyec suit. Drain KO may react violently with water in drain to spatter back out of drain. Keep face and body away from drain when using. Pour Drain KO as is into drain opening and immediately place any type of larger container with opening over drain hole to avoid eruption of drain contents into the area above the drain.

DIRECTIONS FOR DRAINS: Pour 2 to 4 ounces directly into the drain grate. Avoid pouring around drain gate. Allow 10 to 15 minutes then follow with additional doses of Drain KO until drain unstops and begins to flow down the drain pipe. Follow this with cold tap water to rinse all materials from around drain into the drain to help flush all loosened materials in pipe down the drain.

DIRECTIONS FOR LIFT STATIONS: Pour Drain KO directly into the lift station well as close to the pump suction port as possible. The amount of product to break up the solids will depend on how much solids there are. Keep adding Drain KO until all solids are liquids.

Prevention:
Do not eat, drink, or smoke while using this product. Avoid breathing fumes, mist and overspray as much as possible. Use only in well ventilated areas.
Eyes: Wear safety glasses when handling product.
Skin: Wear appropriate gloves to prevent skin exposure.
Clothing: Wear appropriate protective clothing to prevent skin exposure.
Respirators: Follow the OSHA respirator regulations if exposure limits are exceeded or if irritation or other symptoms are experienced.

UN1760,
Corrosive Liquids, N.O.S.,
(Sodium Hydroxide), 8, PGI

Danger!
May be corrosive to metals.
Causes severe skin burns and eye damage.

Prevention:
Do not eat, drink, or smoke while using this product. Avoid breathing fumes, mist and overspray as much as possible. Use only in well ventilated areas.
Eyes: Wear safety glasses when handling product. Skin: Wear appropriate gloves to prevent skin exposure.
Clothing: Wear appropriate protective clothing to prevent skin exposure. **Respirators:** Follow the OSHA respirator regulations if exposure limits are exceeded or if irritation or other symptoms are experienced.

Precautionary Statements (First Aid):
Eyes: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Remove contact lenses if present and easy to do. Get medical attention immediately if irritation persists.
Skin: Immediately flush skin with plenty of water for at least 15 minutes while removing any contaminated clothing and shoes. Discard contaminated clothing in a manner which limits further exposure, making sure to wash before reuse. Contact a physician immediately if irritation persists.
Ingestion: Do not induce vomiting. If victim is conscious and alert, give 2-4 cups of water. Never give anything by mouth to an unconscious person. Get medical attention immediately.
Inhalation: Remove from exposure and move to fresh air immediately and keep comfortable for breathing. If breathing is difficult, give oxygen. If breathing has ceased apply artificial respiration using oxygen and a suitable mechanical device such as a bag and a mask. Get medical attention immediately if irritation persists.
Notes to Physician: Treat symptomatically and supportively. Consult a doctor and/or the nearest Poison Control Centre for all exposures.
