

AGP-50

"THE MIRACLE CLEANER-DEGREASER"

- **CLEANS LIKE A MIRACLE**
- **GREAT DEGREASER**
- **NON-HAZARDOUS**
- **SAFE ON ALL SURFACES**
- **BIODEGRADABLE**
- **FREE RINSING**
- **NON-CAUSTIC**
- **ALL PURPOSE**

AGP-50 is a premium, high quality, concentrated cleaner degreaser that contains an organic water soluble solvent to help dissolve grease, oil, mold, mildew, soap scum, etc. **AGP-50** has exhibited a superior ability to clean awning material that has been heavily soiled by the elements. It is very effective in the high pressure, cold or hot water washing of mobile homes, RV's, trucks, trailers, buildings, etc. **AGP-50** is also an excellent prespray for use on extremely difficult cleaning jobs and will clean engines, vinyl, white wall tires, stainless steel, aluminum, painted surfaces, floors, walls and counter tops. The corrosion inhibitors and water softeners in **AGP-50** help prevent rusting of ferrous metals and scale buildup in heating coils. **AGP-50** is truly a "miracle cleaner" designed for the "space age".

AGP-50 is a concentrate; in most applications should be diluted prior to use. For general cleaning, degreasing dilute 1 part **AGP-50** with 50 parts water. For heavy soil dilute 1 part **AGP-50** with 10 parts water. For cleaning white wall tires dilute 1 part **AGP-50** with 2 parts water. However, when used as a prespray, **AGP-50** may be used full strength depending on severity of soil load. When used through pressure washing equipment, drop detergent feed line into **AGP-50** concentrate and set metering valve to desired setting, and soak entire surface from bottom up, return to starting point and detail clean. Rinse with fresh water from top down.

AGP-50 is a non caustic cleaner degreaser and can be used for cleaning surfaces not normally harmed by water. It is an excellent cleaner for general cleaning and degreasing in industrial, commercial and domestic environments. **AGP-50** is really good for degreasing under hood compartments, tires, rims and interior components in auto detailing. It is excellent as a spray and wipe degreaser in manufacturing plants. Wonderful cleaner for use in kitchen operations as a floor cleaner, counter top and table spray & wipe cleaner and equipment cleaner. In a janitorial setting **AGP-50** is extremely good as a general purpose spray and wipe as well as a spotter for carpet cleaning.

AGP-50 is the only general purpose cleaner degreaser that you will ever need. Give it a try today!
