

DIRECTIONS

To declog drains and disposals, pour eight ounces of CITRUS CLEAN directly into opening. Let stand for one hour or more. Flush with hot water. To clean and degrease surfaces, add four ounces of CITRUS CLEAN to one gallon of warm water. Apply solution generously to surface to be cleaned. Let stand for five minutes. Rinse thoroughly. To remove flooring adhesives, apply CITRUS CLEAN full strength to floor and agitate with a stiff broom. When the adhesive has been sufficiently loosened use an oil absorbing material, such as those used in service stations, to pick up the remaining liquid.

CAUTION: Contains petroleum distillates. Keep away from heat and open flame. Do not take internally. Avoid contact with eyes. CITRUS CLEAN is a concentrated organic formula that may be harmful to plastics or painted surfaces. Test surface in an inconspicuous area before using. CITRUS CLEAN is a powerful solvent and will defat skin. Rubber gloves are recommended to avoid chapped skin. Keep container tightly closed when not in use.

USE ON: Carpeting • Metal • Ceramic Tile • Wood Paneling • Glass • Concrete
