

DESCRIPTION:

AGP 50 is designed to be used as a general purpose cleaner and degreaser that can be used to clean many hard surfaces in hotels, motels, kitchens, garbage areas, maintenance departments, pools equipment, heavy equipment, stadium and arena seats, automobile & detailing cleaning, fleet vehicles, road repair equipment, construction equipment, boats, ships and marine equipment and areas. AGP50 is an extremely versatile surface cleaner and degreaser. Its non corrosive and excellent for removing dirt, grime, grease, oil, mold, mildew, food soils, and many other soils from a variety of surfaces.. AGP50 is useful for cleaning awnings made from a variety of materials such as cloth, vinyl and plastic. Will help to remove the build up of mold and mildew from surfaces.

USE DIRECTIONS:

For General Cleaning:APG50 may be used as is or mixed with up to 15 parts water. Fill a sprayer with the AGP 50 solution and apply directly to the surface to be cleaned. On vertical surfaces be sure to apply solution from bottom up. Detail clean from the bottom up and wipe dry from the top down. For Cleaning Vinyl: simply spray AGP50 as is or with up to 10 to 15 parts water onto surface to be cleaned. Starting at the vertical surfaces first, then moving to the horizontal. Be certain to prevent AGP50 from running onto the adjacent paint. Allow the solution to stand a few minutes, then using a soft bristle brush, sponge or rag, scrub in a circular motion. Once all soils have been loosened, rinse with water from the top down with a soft cloth then with a dry cloth. For Oil Removal, spray as is onto the oil to be removed. Agitate the mixture until all the oils is emulsified for removal. It may then be rinsed.

Net Contents: On Container

Danger!
Causes severe skin burns and eye damage.
Causes serious eye damage.

Prevention:

Do not eat, drink, or smoke while using this product. Avoid breathing fumes, mist and overspray as much as possible. Use only in well ventilated areas. Eyes: Wear safety glasses when handling product. Skin: Wear appropriate gloves to prevent skin exposure. Clothing: Wear appropriate protective clothing to prevent skin exposure. Respirators: Follow the OSHA respirator regulations if exposure limits are exceeded or if irritation or other symptoms are experienced.

Precautionary Statements (First Aid):

Eyes: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Remove contact lenses if present and easy to do. Get medical attention immediately if irritation persists.
Skin: Immediately flush skin with plenty of water for at least 15 minutes while removing any contaminated clothing and shoes. Discard contaminated clothing in a manner which limits further exposure, making sure to wash before reuse. Contact a physician immediately if irritation persists.
Ingestion: Do not induce vomiting. If victim is conscious and alert, give 2-4 cups of water. Never give anything by mouth to an unconscious person. Get medical attention immediately.
Inhalation: Remove from exposure and move to fresh air immediately and keep comfortable for breathing. If breathing is difficult, give oxygen. If breathing has ceased apply artificial respiration using oxygen and a suitable mechanical device such as a bag and a mask. Get medical attention immediately if irritation persists.

Notes to Physician: Treat symptomatically and supportively. Consult a doctor and/or the nearest Poison Control Centre for all exposures.
