Guardian

Powdered Floor Cleaner Plus Quat

Net Contents: On Containers

Caution:
For Professional Use Only.
Keep Out Of Reach Of Children.
Please read all precautions and SDS
before using this or any product.

This product is designed for use in industrial and institutional facilities, including food processing plants, cold or cool rooms, doorways, fork lift traffic lanes, or dry storage warehouses. It contains a special cationic detergent to clean and deodorize floor surfaces. It is one of the most unique products of its kind, and will provide benefits 24 hours a day. GUARDIAN will also prevent ice from forming on floors and decks, which will improve safety.

INSTRUCTIONS:

For light duty use 1-2 lbs per 100 sq ft. For heavy traffic areas use 2-3 lbs per 100 sq ft. GUARDIAN can be used on wet or dry surfaces. Spread uniformly on floor or deck using broadcast method. The unique bead shape will prevent clumping. Reapply as necessary and allow to remain on floor. In traffic areas the beads will easily crush and will transfer to shoes and tires, which will actually increase the efficiency. Rinse off or squeegee the floor AT LEAST once or twice weekly, and broadcast a new layer as needed. Food contact equipment should be rinsed with potable water if exposed.

Prevention:

Do not eat, drink, or smoke while using this product.

Avoid breathing fumes, mist and overspray as much as possible. Use only in well ventilated areas.

Eyes: Wear safety glasses when handling product.

Skin: Wear appropriate gloves to prevent skin exposure.

Clothing: Wear appropriate protective clothing to prevent skin exposure.

Respirators: Follow the OSHA respirator regulations if exposure limits are exceeded or if irritation or other symptoms are experienced.

Precautionary Statements (First Aid):

Eyes: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Remove contact lenses if present and easy to do. Get medical attention immediately if irritation persists.

Skin: Immediately flush skin with plenty of water for at least 15 minutes while removing any contaminated clothing and shoes. Discard contaminated clothing in a manner which limits further exposure, making sure to wash before reuse. Contact a physician immediately if irritation persists.

Ingestion: Do not induce vomiting. If victim is conscious and alert, give 2-4 cups of water. Never give anything by mouth to an unconscious person. Get medical attention immediately.

Inhalation: Remove from exposure and move to fresh air immediately and keep comfortable for breathing. If breathing is difficult, give oxygen. If breathing has ceased apply artificial respiration using oxygen and a suitable mechanical device such as a bag and a mask. Get medical attention immediately if irritation persists.
